➤ Alumnae Feedback

Alumnae feedback on curriculum and teacher performance contributes towards the evaluation and betterment of the same. The college is vigilant in considering these suggestions to make an effective administrative and educational system.

Alumni Feedback Repoort 2022-23

The series of questions prepared for Alumni - surveys across various aspects of the educational experience, including syllabus prospects, teaching quality, curriculum activities, holistic development through courses, alumni association effectiveness, teacher-student dynamics, and the overall academic atmosphere, provide a comprehensive view of student satisfaction in a college setting. These surveys, encompassing areas crucial for academic and professional success, offer valuable insights into the current state of educational services and potential areas for future development.

The survey on syllabus prospects for competitive exams, higher education, and employability reveals a predominantly positive response, with over 82% of students either 'Highly Satisfied' or 'Satisfied'. However, the presence of a moderately satisfied group (12.79%) and a small proportion of dissatisfied students (4.36%) highlights areas for potential improvement. Addressing the specific needs of these less satisfied groups is crucial for refining the syllabus, ensuring it remains effective and relevant for all students. Continuous feedback and adaptation based on student input are key to maintaining the syllabus's alignment with academic and professional requirements.

ALUMNAE ENGAGEMENT 2018-2023

➤ Social Commitment

The Alumnae Association upholds the vision and mission of the college through the conduct of activities related to women empowerment. Every year the Alumnae Association conducts an exhibition cum sale in connection with Annual Alumnae Meet to encourage entrepreneurship among the members. Alumnae contribute to community extension activities like awareness classes, flood and COVID-19 relief work, and the Snehavedu project.
