## Action Taken Report based on Student Feedback Analysis (2018-19)

- Reviewed curriculum structures to ensure comprehensive coverage of essential topics while allowing flexibility for in-depth exploration of specialized areas. Enhanced curriculum delivery methods to promote active learning and engagement across a wide range of subject areas.
- Collaborated with librarians to assess and update library collections, ensuring alignment with curriculum requirements and student interests. Implemented user feedback mechanisms to gather input on preferred resources and areas for improvement.
- Invested in digital infrastructure and content acquisition to enrich the availability and variety of electronic resources. Conducted training sessions to educate students on accessing and utilizing e-resources effectively for their academic and research needs.
- Incorporated hands-on learning experiences and practical exercises into curriculum design to enhance the application level of subjects. Fostered industry partnerships and internship opportunities to provide students with real-world experience and practical skills development.
- Expanded career counselling and academic advising services to support students in planning and pursuing their future academic endeavours. Established mentorship programs and alumni networks to provide guidance and support for students transitioning to higher education or professional pathways.

These actions reflect our commitment to addressing student feedback and continuously improving the quality of education provided. By incorporating student perspectives and insights into our ongoing development efforts, we strive to create a dynamic and enriching learning environment that empowers students to thrive and succeed in their academic and professional pursuits.
